

Odyssey of the Mind

Program Goals

1. Develop creative thinking abilities
2. Increase student ability to apply known principles and facts to "hands-on" situations.
3. Improve communication skills.
4. Learn how to use a creative problem solving process.
5. Develop and utilize skills of all team members.
6. Develop and use local resources.
7. Develop and use research skills.
8. Exercise and use the higher order thinking and critical thinking skills, especially analysis, synthesis and evaluation.
9. Have fun while learning all of these very important skills.
