

## **DONATE 2 EDUCATE**

Our New Donation Program is an easy, simple, and direct way to help our schools, teachers, and students. You donate directly to our CLASSROOMS, through our web site. This is so easy, because all you do is go to our web site [www.natomasfoundation.org](http://www.natomasfoundation.org) click on **DONATE 2 EDUCATE**.

Read and review the letters from our schools. These are written requests directly from our classrooms, schools, clubs, and school organizations. Small or large we posted them on our web site, for the community to be able reach out and give a helping hand to these request, needs, and wishlist items. They ask for a variety of items, you pick which items appeals to you. These items will help enrich our students in our classrooms.

Let's say you're interested in music, check the request letters, on the DONATE TO EDUCATE link, and you might find that the music teacher from Natomas High School is need of sheet music. You want to help them; you see that the total cost for sheet music is \$200.00. You decide on how much you would like to donate. Let's say \$50.00, towards this cause. You simply put in your amount and information, and it goes directly to the foundation, and then we send out a check to that teacher for that request, once the request is fulfilled. You're all done. Easy!

We will post these requests on the web site until the request if fulfilled. This gives our community a chance to reach out. To help a classroom directly, with a specific need, in any amount that you can donate. Small or large donations are OK. If everyone gave just a little to the projects they like, or are interested in, the request will eventually get fulfilled, and the students will get rewarded, by having these materials in their classroom for their projects.

Our Schools Ask.....You Decide...and Our Students Receive the Benefits of Your Help!

**WHO?** Which teacher or school organization your donation goes to.

**WHAT?** You decide on what items you want to help the schools with.

**WHERE?** Go to our web site [www.natomasfoundation.org](http://www.natomasfoundation.org), and donate to the program or classroom you choose

**WHEN?** Anytime 24/7 the web site is available for you to go to and use.

**HOW?** You decide on how much you want to give.

Being out in the community our board members have talked to many people, businesses and organizations. They want to help our schools help our students. Natomas School District has some great teachers with great ideas that if they just had the resources, they could work their magic on our students, by inspiring them, and creating a love of learning. We all know with budget cuts and the lack of funds our schools are losing their resources. This was one of our ways of trying to help connect YOU to our schools, a help our students become the best they can be in our community.

**EASY! SIMPLE! And DIRECT!**
