

October 2007

Nicole Quant, NSF Interim President

September proved to be an exciting and busy month for the Natomas Schools Foundation, Natomas Unified School District, and the Natomas Community. The 6th Annual Celebrate Natomas event was a huge success. We had a great time talking to community members about what we do and we also signed up many community members to participate as HOST Mentors! It was truly a beautiful sight to see the community come together and celebrate! We would like to thank Best Buy – Natomas for donating the Nintendo Wii raffle prize and providing the Geek Squad to show off the Wii at the event. In addition to donating the Nintendo Wii, 20 Best Buy staff members have committed to becoming HOST Mentors!

We are looking forward to unveiling the new state of the art display sign with full color and graphics in October. Keep an eye out for this new addition at Natomas High School on the corner of Truxel and San Juan Roads.

Thank you to Matt Kelly with The Sierra Building Trades Council for orchestrating a donation of \$10,000 from all the local builders unions. You're making a difference for our children. Thank you to Albert Chavez of Countrywide and Lynn B and Andy Helms from Keller Williams for personally donating all the money necessary to create our new metal HOST program signs displayed at each school. Look for our new "You can help, be a mentor" banners posted throughout Natomas in the near future.
